

## “SAMRUK-ENERGY” JSC STATEMENT REGARDING COMMITMENT TO THE UN GLOBAL COMPACT PRINCIPLES

I am pleased to affirm to our stakeholders that "Samruk-Energy" JSC a participant in the UN Global Compact since 2011, has consistently upheld the Ten Principles of the United Nations Global Compact focusing on human rights, labor, environmental protection, and anti-corruption efforts.

We fully understand that global factors affecting sustainable development worldwide will inevitably lead to limitations, challenges, and risks in the course of conducting business for everyone. "Samruk-Energy" JSC holds a strategic position within Kazakhstan's energy sector and stands as one of the country's largest energy holding companies. Consequently, our primary objective extends beyond ensuring the reliable supply of electricity and heat, even amid adverse conditions, through prudent forecasting and planning. It includes turning challenges into opportunities, preparing for the future, taking care of the environment, and protecting the interests of future generations.

Acknowledging the importance of our influence, we have structured our development strategy for the years 2022 to 2031 around the idea of realizing the Company's mission and vision by adhering to ESG principles. Within this framework, a critical focus lies on promoting sustainable development.

We voluntarily commit to responsible business practices, advocating for human rights across our entire value chain, actively engaging with our employees and the communities in regions where we operate. We have integrated human rights principles into our corporate strategy, culture, and daily operations, aligning them with sustainable development goals. This ensures a well-rounded harmony between the interests of our stakeholders and strategic, operational objectives of the Company.

We aim to keeping stakeholders consistently updated about our ongoing efforts to integrate and put into action the United Nations' ten principles and 17 sustainable development goals, UN global agenda, its objectives, and initiatives into every facet of our company's operations. This information will be accessible through Communication on Progress available on the UN Global Compact website at the following link: [www.unglobalcompact.org](http://www.unglobalcompact.org), in our Annual Reports on operating results, and also on our company's website at: [www.samruk-energy.kz](http://www.samruk-energy.kz)

Best regards, *Kairat Maxutov*  
*Chairman of the Board of "Samruk-Energy" JSC*
